FIRST AID, AED & CPR SUPPLIES

An innovative product that saves training dollars. Our **Practi-VALVE™** may be used in conjunction with our **Practi-MASK™** or most other CPR masks. For training use only. Packed 10 per bag. Valves are individually poly-sealed. Valve Dimensions: 2.25"x1". Bag Dimensions: 7.5"x7"

Part # 5000TV
Practi-VALVE™
 (10/bg) 10 bg/cs
 Bag Weight: 0.3 lbs
 Case Weight: 3 lbs

Our **Practi-MASK™** Training masks provide a cost effective solution for teaching CPR without using a more expensive rescue mask. Use them with our low cost training valves (purchase separately or included in our combo packs) for added savings. Soft, pliable bladders conform well to manikin faces. Masks do not have oxygen port and are for training only. Box of 10 adult/child size masks.

Our third generation universal AED **Practi-TRAINER™** has been completely updated and features many new functional improvements. We have been gathering feedback from our customers for months and working with both a product designer and our manufacturer to produce an incredible product. This new unit includes a replaceable scenario/language module, making it the most unique and cost effective unit on the market today.

The **Practi-TRAINER™** meets 2010 ECC guidelines and the replaceable module means when future ECC guidelines are updated, you only need to upgrade your plug-in module. No need to buy an entirely new unit or send it out for re-programming.

The WL220ES includes: Easy to install/replace module that has our pre-programmed scenarios in 2 languages (English/Spanish). Remote control unit provides instructors with easy access to changing scenarios and ability to pause play for classroom discussion. 8 pre-programmed scenarios provide useful training and troubleshooting options for students. Adult and Child pads are included for complete training. Unit measures 7.5"x5.75"x1.75". Weight: 2 lbs.

Practi-TRAINER™ Essentials is affordable and compact enough for instructors to bring one for everybody in the class! It offers a universal training experience to prepare students to use a variety of different AEDs. It features two preprogrammed scenarios, clear voice prompts, built-in Bi-Lingual options, and a metronome. **Practi-TRAINER™ Essentials** is compatible with any type of CPR manikin that is intended for AED training. Key features and benefits are realistic defibrillator training, and affordable enough for each student in a class to have their own trainer. Voice prompts guide students through simulated rescue situations. Metronome sets proper pace for effective chest compressions. Lightweight, compact unit is ideal for transporting to trainings at any location. Flexible power options include an available A/C adapter (sold separately) for longer use, or batteries for greater portability. Each unit comes with: AED trainer, 1 set of reusable adult training pads and connector, 1 set of reusable child training pads and connector, 3 AA batteries, nylon carrying case, instructor manual, and a 1-year manufacturer's warranty.

Single: Trainer measures 5"x5"x1.75". Case measures 9"x 7"x2.25". Weight: 6.9 oz (trainer only)

4-Pack: Trainer measures 5" x5" x1.75". Case measures 14.25"x14.25"x 3.5". Weight: 6.9 oz (trainer only)

This innovative [Family First Aid Kit](#) is two kits in one. The complete kit features 5 zippered interior pockets, arranged by emergency category. Each pocket lists the contents on one side while the other side is clear to view pocket contents. Two of these zippered pockets can be removed to form its own compact first aid kit. It's perfect for travel, outdoor adventures, home or office. The main kit is padded and includes a convenient webbed carry handle and a belt loop in back. Whether you're treating a small cut or a more serious injury, you'll find exactly what you need easily and quickly. This kit contains 108 pieces, and includes a first aid instruction guide. Kit measures 8 ½" x 6" x 3"

Part# FAK4100

20/Cs

Case Weight: 40 lbs

Our [Medium All-Purpose First Aid Kit](#) in a handy portfolio style case has 2 clear inner pockets allowing you to see items and find what you need fast. This kit has everything you need for administering basic first aid and CPR in an easy to open portfolio. We specifically designed this bag to be opened with one hand (if needed) and made it small enough to fit into almost any space you choose. Contains 57 items and portfolio has hook and loop closure. Kit measures 8" x 5" when closed.

Part# FAK3200

[Medium All Purpose First Aid Kit - 57 Pieces](#)

50/Cs

Case Weight: 35 lbs

This compact kit is small in stature but big on utility. Measuring just 4" x 4", it's chock full of the highest quality and most critical components to treat minor injuries. Plus, it's our smallest kit which includes our popular ice pack. The [Compact First Aid Kit](#) is made from durable nylon. It stores easily in a briefcase, purse, glove compartment or desk drawer.

Part# FAK2175

[Compact First Aid Kit - 28 Pieces](#)

60/Cs

Case Weight: 30 lbs

Be prepared when disaster strikes. The [Deluxe Adult Comfort kit](#) includes essential personal hygiene supplies plus a convenient mesh carry pouch. Includes comb, toothbrush, toothpaste, bar soap, shampoo, hand & body lotion, roll-on antiperspirant, tissues and wash cloth.
